DOMKAL GIRLS' COLLEGE

ESTD-2011

Domkal, Murshidabad, 742303 E-mail: domkalgirlscollege@gmail.com Ph: 7407000788

DVV Explanations/Rectifications:

1.3.2 Percentage of students undertaking project work/field work/ internships (Data for the latest completed academic year)

1.3.2.1. **Number of students undertaking project work/field work / internships** HEI Input:887

Revised HE input: 807

Data Revision Logic

1. one student involved in multiple field works and/or project work and/or internship in the same academic session should be counted as one

Additional Documents

- 1. List of students along with the details of title, place of work, duration etc.
- 2. ENGLISH VERSION internship completion certificate/project work completion certificate from the organization where internship/ project was completed.
- 3. report of the field work/sample photographs of the field work / permission letter only for field work from the competent authority.

PRINCIPAL 05 09 24 Domkal Girls' Cellege Domkal, Murshidabad

NAAC SSR

CRITERIA: 1

SUB-CRITERIA: 1.3.2

Percentage of students undertaking project work/field work/ internships (Data for the latest completed academic year)

Documents Submitted:

Documents related to project work/field work (Academic Session 2022-2023)

Documents Submitted:

1. List of students along with the details of title, place of work, duration etc.

Report of the Project Work Submitted by students of 4thSemester of Geography program course, 2022-23 Session

Report dated 19.09.2023

Students of the 4th Semester of Department of Geography chose **Project Work** as their SEC paper among other options. They were completed their work under their supervision of departmental teacher. Following a discussion with respective teacher, they selected their topic of the project within a wide range of sub themes from **Labour out migration from Domkal sub-division along Faridpur village**. They were guided accordingly and their Project Work were checked and verified at a regular interval by respective supervisor. They have completed their work successfully and finally submitted the same on 19.09.23.

Number of participants: 6

Course Objective:

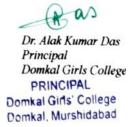

The course intends to instill the following ability in learners:

- **Reflective thinking**: Learners must be able to think deeply and apply the knowledge and competencies so gained in practical field in the context of both self and society.
- Information/digital literacy: Through project work learners can develop different skills related to digital literacy like- demonstrate ability to access, evaluate, and use a variety of relevant information and use appropriate software for analysis of data.
- **Self-directed learning**: Project works will help learners to develop the ability to work independently.
- Enhancing interactive ability: As a student has to take guidance from his/her supervisorin Project Work, his/her ability of interaction with teachers or with peers must enhance.
- Moral and ethical awareness/reasoning: A project work deals with different ethical and moral issues. It plays an important role in nurturing moral and ethical awareness.

Course Outcome:

After completion of this course the learner will be able to:

- Explain the process of conducting a Project.
- Prepare a Project Report.
- Interact freely with supervisor
- Learn using digital devices

Project Report:

LABOR OUT MIGRATION FROM DOMKAL SUB-DIVISION ALONG FARIDPUR VILLAGE:

INTRODUCTION:

The word "migration has been derived from Latin word "migration "it means to change ones residence migration denote movement of population from one village are town to another village or town .migration is an approach to move about from one place to another place with both the region i.e. to survive and to work .

According to raven stein (1880)," migration is the temporary or permeant move of individuals or groups of people from on geography location to another for various regions raging from deter employment possibilities to persecution.

In encyclopedia Americana migration is defining as," migration is coordinated voluntary movement of a considerable number of people from an accustomed habitat to a new one."

Types of migration: Depending upon the point of migration, migration have been presiding in to four deferent from

- (i)In-migration
- (ii)out-migration
- (iii)immigration
- (iv)emigration

Based on the opportunities of the human needs the migration has been classified in to deferent forms----

- (i) Internal migration
- (ii)External migration
- (iii)retune migration
- (iv) seasonal migration.

Migration stream: a group of migrant's common origin and destination is called a migration stream. It has been divided four types -----

- (i) Rural to rural
- (ii) Rural to Urban
- (iii)Urban to rural
- (iv) Urban to urban

STATEMENT OF THE PROBLEM:

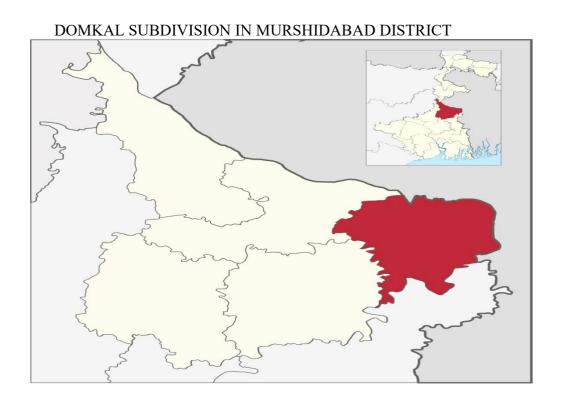

Migration is a universal phenomenon in modern times. The development of towns and city is to a very large extent due to the contributions made by the migrants in their deferent capacities. the migration towards towns is determent by many factors. The present study has tried to find out the socio-economic profile of the sample migrant laborers who were residing during the study period in the study area. the study also attempted to find out the direction of migration, the pat and of migration.

Rural to urban migration takes place with specific scenarios of regional economic development. during the last ten years, it was notice that there was a significant relation between work force migration and socio-economic development of Domkal sub division. the illiterate, power less and landless workers have been completed to leave their own land and migrant to urban areas in search of jobs. Domkal sub division is one of the most backward –S.D. O of Murshidabad district of West Bengal, having less education, less opportunities, less empowerment and less social status. So, the people of the area are disappointed with their family meatiness. economic backwardness of area works of the main push factor for displacement of unskilled workers.

So, briefly this study is an attempted at identifying spatiality, causes, remittance and factors affecting out migration from the rural area of Domkal sub division depending upon the geographical contact as outline.

STUDY AREA:

Domkal sub division of Murshidabad district in the state of West Bengal, India. It has been choosing as our survey project. Domkal S.D. O has four police station. four c. d. block, four panchayet sanities. 38-gram panchayets, 203 village and 2 census town. the head coater of the sub division is Domkal. for our survey project we have been chosen Faridpur village for our primary survey.

OBJECTIVES:

- (i) To identify the volume, tread and patent form rural labor out migration from Murshidabad district.
- (ii)To examine the socio-economic background of the study area.
- (iii)To examine the reasons behind labor migration.
- (iv)To examine the impacts of labor migration on study area.
- (v)To identify the problems of this study area.

DATA BASE:

This study relies both on primary and secondary sours. Primary data is collected with the help of a questionnaire, discussions and personal interiors with the respondent and the respondents were selected randomly comprising of different socio-economic background from Faridpur village in Domkal subdivision. Secondary data are collected from various sources like government gazettes, journals, articles, magazines and newspaper etc.

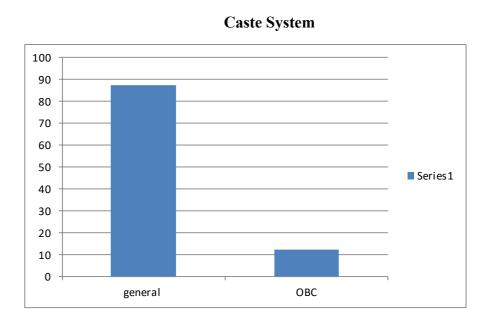

METHOLOGY:

To fulfill the above-mentioned objectives the following suitable techniques and methods will be adopted

- (1) **Migration rate**: This method has been adopted for measuring the trend and pattens of migration in the study area by the help of in-migration rate, out-migration rate, net –migration rate.
- (2) **Binary logistic regression model**: -- This method has been applied to explain the reason of rural out migration in study village.
- (3) **Correlation analysis**: This method has been used for measuring the correlation between rural out migration and determinant factors by correlation coefficient method.
- (4) CHI-SQUARE TEST (x2): This test has been applied for measuring the consequences of rural out migration in the study village.
- (5) **Lorenz curve**: -This curve has been used for measuring the monthly income and expenditure inequality of migrant family in study village.

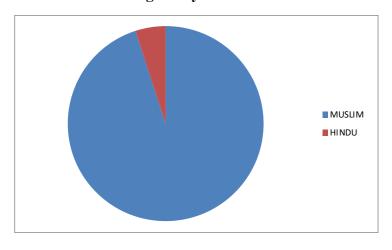

RESULT AND DISCUSSION:

Caste System: From the Figure (1) shows that the caste system of the study village, where 87.5 % Migrant People belongs to general category and 12.5% people belong to OBC category.

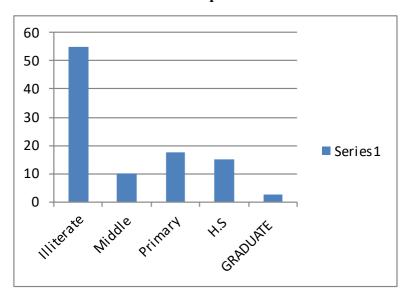

Religious system: In the diagram (2) shows that the religious system of the study village, where 95%. people belong to Muslim religion and only 5% migrant people belongs to Hindu religion.

Religious system

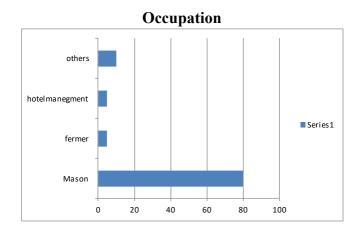

Educational qualification: From the figure (3) represent that the educational qualification of the migrant people in study village, where 55%. people are illiterate and 45% people are literate and maximum Literate people fall under primary to Hs qualification.

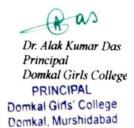

Occupation: - In the diagram (4) shows that the occupational diversification of the migrant people (801) in Study village, where minimum people are joint in mason occupation, rest of the persons (20%) joint in farmer, hotel, and other occupation.

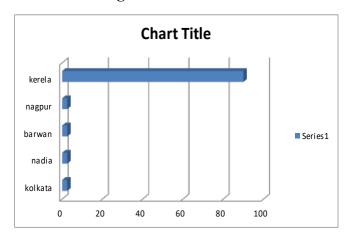

Migrated towards area: - From the figure (5) shows that the migrant people migrated towards in which places of India from the study village. It also replaces that

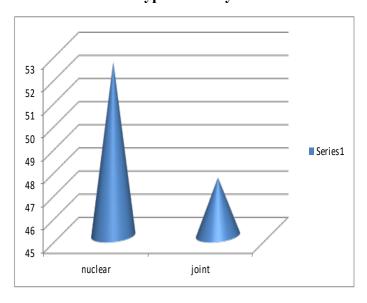

90% people are where migrated towards in Kerela and 10%. people migrated towards Kolkata, Nadia, Burdwan, and Nagpur:

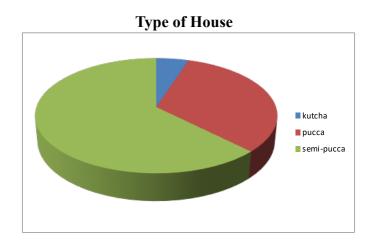

Type of family: - In the figure (6) response that the family type of migrant people in study Village, where 52.50% family are nuclear type and 47.5% families are joint family.

Type of family

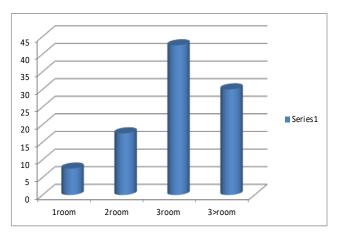

Type of House- From the figure (7) represent that the house type of migrant people in study village, where maximum house is semi-pucca type (62.5%), some belongs to pucca type (32.5) and rest of others (5%) house are kutcha type.

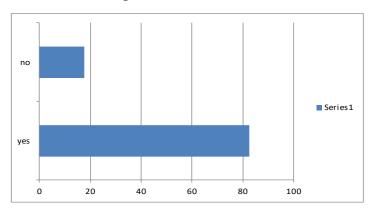

Number of Living room; - In the figure (8) shows that number of Living room of migrant people in study where maximum people household have 3- and more than 3 living room in their houses (75%.) and only (25%) household hare 1 and 2 living room in their houses.

Number of Living room

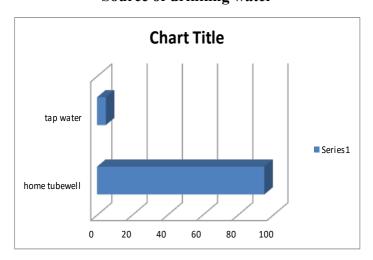

Separate Kitchen room: - From the figure (9) represent that there have any separate Kitchen room in their houses of migrant people in Study village, where 82.5% houses have separate kitchen but 17.54. house have not any separate kitchen

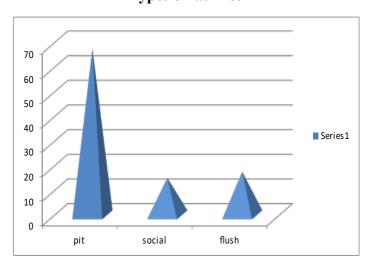

Source of drinking water - In the diagram (10) shows that drinking water source of the migrant household in the minimum where (95%). houses have home tube well for their use of drinking water and only 5% people are used tap water for fulfilling their demanding demand of drinking water.

Source of drinking water

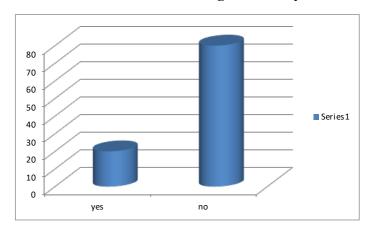

Types of latrines: - From the figure (11) shows that the uses of different latrine type in the migrant household. In the migrant household maki- mum are where used (67.5%) Pit latrine and rest of them were used social on first time.

Types of latrines

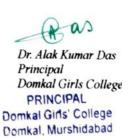

Cultivable land of migrant family: - In the figure (12) represent that how many families have any type of cultivable land in their family, where (20%) family present cultivable land but (80%) family have not presented any type of cultivable land.

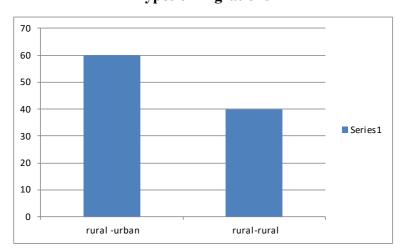

Cultivable land of migrant family

Types of migrations - In the diagram (13) source that the types of migration in the study area, where (60%) people were migrated from Rural - Urban area and (40%) migrated people were migrated from Rural-Rural area.

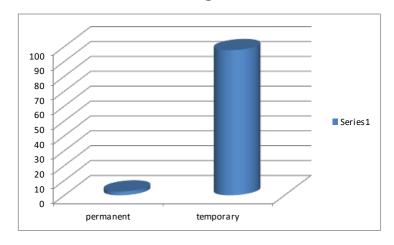

Types of migrations

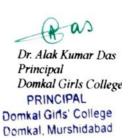

Nature of migration: - In the figure (14) represent those natures of migration in the study area, where (97.5%) migrated people where migrant temporary in nature and only (2.5%) people where he belongs to permanent nature.

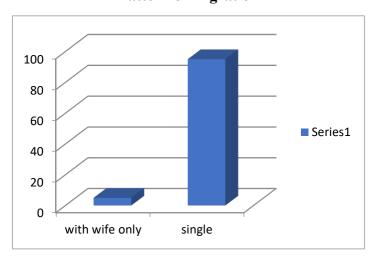

Nature of migration

Pattern of migration: In the figure (15) represent that shows that the Pattern of migration in the study village, where (95%) people where migrant with himself and only (5%) people were migrated with his wife.

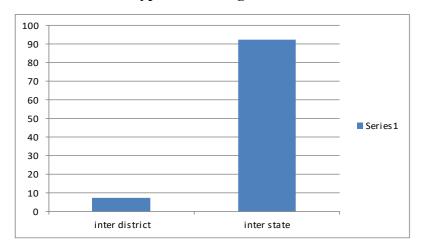

Pattern of migration

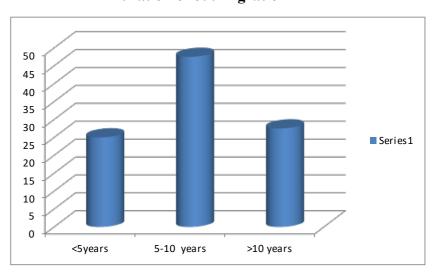

Types of out-migrations: -In the figure (16) represent that the types of out migration in the study area, where (92.5%) out-migration happened in Inter-State wise and only (7.5%) where migrated in Inter-district wise.

Types of out-migrations

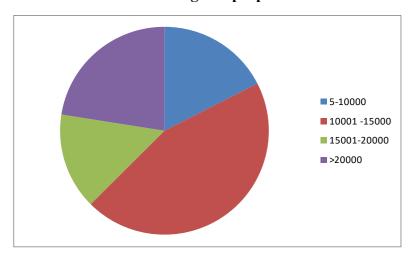

Duration of out migrations- In the diagram (17) shows that the duration of out-migration in the study area, where (47.5%) above where migrant during 5-10 years, (27.5%) where migrated during 10 years and (25%) people where migrate during >5 years.

Duration of out migration

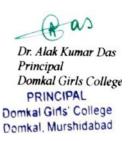

Income of migrant people: - In the figure (18) shows that Income status of the migrant people in the study area, where (45%) people had income 10,001- 15,000 rupees per month, (15%) had people had income 15001-20000 per month, (22.55%) people had incomed above-20,000 and (17.50%) People had income -5000-10000 rupees Por month.

Income of migrant people

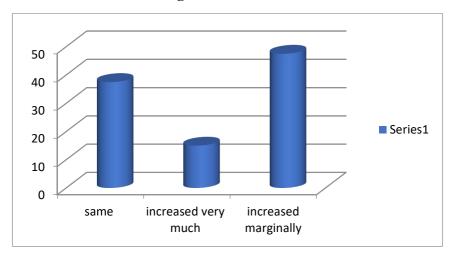

Effect of migration in Income: - In the figure. (49) represent effect of migration. on income in the migrant household, where (47.5%) people said that their income had been increased marginally after migration, (50%) people said their income increased

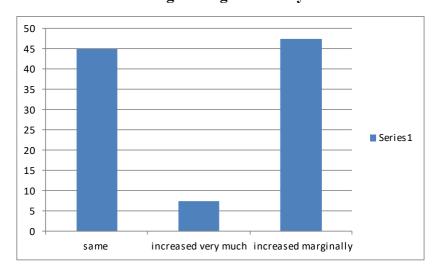

very much and (37.5%) migrant people said that their, income has been not changed after migration.

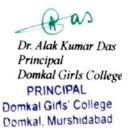

Savings of migrant family: - In the figure (20) represent that saving of migrant family in the study. area, where (47.5%) house-hold savings increased marginally, (7.5%) family savings, increased very much, and (45%) family savings have no change after migration.

Savings of migrant family

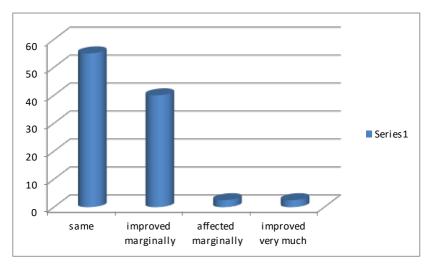

Health status after migration: -

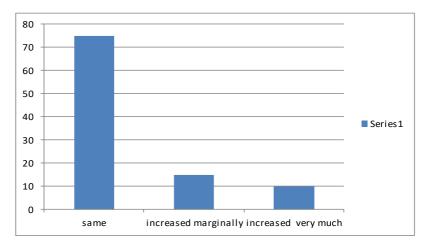

In the figure (21) represent that health status of the migrant family in the after-migration in. Study village, where (55%) house-hold member Said that their no change of health Status after migration, (40%) household Said health status improved marginally and (2.5%) house hold said health status affected marginally after migration and (2.5%) house hold said health status improved very much after migration.

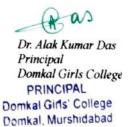

Medical expenditure after migration: In the figure (22) presents those medical expenditures of the migrant family and uses of money in medical purposes after migration, where (75%) household where consider their have no change of medical expenditure after migration, (15%) house hold said that expenditure increased marginally and (10%) household said increased Very much.

Medical expenditure after migration

Problems & suggestion

From the above study it is clear that the states region people are migrated for economic reasons and this region are less developed due to lack of food, employment,

resources, industry, services etc. Local income of the out migrant people is very small and they are illiterate and their size of family are big and also there have present some socio-economic issues, which are also influenced the out-migration process in study village. The increasing trend of out- migration are controlled by the implementation of government schemes including of the s the national, Rural employment guarantee Scheme etc.

Conclusion: -This is strong basis to state the need for overall activities in Faridpur village, Domkal Subdivision not, just to create local employment opportunity comparable to other Parts of Domkal Subdivision and Murshidabad also and also create lack of education and skilled development opportunity.

This paper found that at the remittance levels their need to be clean priority develop skilled workers who can earn relatively more income than the others place and there have an arrangement of various skill training in this area by the intervention of the government and non-government agency should be targeted. There is relatively large out migration during the month of march. This paper also suggested that there have need for overall development, social intervention need to be designed in such a manner that this movement are taken in to account and in present time state and central government need have plans in place. to provide different opportunity of the outmigrant people.

PROJECT REPORT

[ACADEMIC SESSION 2022-2023]
ENVIRONMENTAL STUDIES [For All Honours Students]

Title: Pollution Issues in Urban Areas

Place: Domkal Municipality Area, Domkal, Murshidabad

***** Objectives:

- To create awareness among students and urban people.
- To identify causes and consequences of pollution in urban area
- To suggest remedial measures to combat with the issues.

Learning Outcomes:

- i. Students are able to formulate their own learning goals by experiencing the ground reality.
- ii. They rated their own level of domain of expertise along a continuum ranging from 'novice'to 'expert'.
- iii. A holistic development can be observed among the students.

***** Target:

No. of students participated: 415 (Semester-I

Honours)

Registration session: 2022-2023

No.of teacher guide:01

Description:

The project was organised for the partial fulfilment of Semester-I Honours ENVS-H-AECC-2 Smt. Mr Abdullahil baki teacher of Environmental Studies, is the supervisor for the project work. The field was conducted on 20/12/2022 to 15/01/2023 at domkal college area

Domkal, Murshidabad, West Bengal. The project work was organised to highlight the pollution related issues in the project area. The urbaner are not conscious about

these issues. So, it was an attempt to make them aware.

SWOC (Strengths-Weaknesses-Opportunities-Challenges):

Strengths- It was an attempt to create awareness among the urbaner of the project area. Quantitative and qualitative data were collected during the project for the preparation of project report. Relevant photos and other necessary videos were also recorded during the project work.

Weaknesses- Any in-depth project needs sufficient time. It was difficult to study a region in a short period of time. So, there were some limitations. More modern equipment and technologies were also needed. But, these were not carried except smartphones.

Opportunities- It was an effort to achieve the empirical knowledge which is helpful to the students to enrich their knowledge regarding environment. That project work was capable of giving the students the beliefs and inspiration to conduct more project like that in more extensive ways.

Challenges- It was difficult to arrange an excursion as it required a lot of money. There were students of different socio-economic background. Most of the students were from villages and had some financial problems.

Report of the Project Work Submitted by students of 4th Semester of Education Honours, 2022-23 Session

Report dated 20.09.2023

Students of the 4th Semester of Department of Education chose Project Work as their SEC paper among other options. They were distributed accordingly among six teachers of the Department to work under their supervision. Following a discussion with respective supervisor, they selected their topic of the project within a wide range of sub themes from Indian Education System: A retrospect. They were guided accordingly and their Project Work were checked and verified at a regular interval by respective supervisors. They have completed their work successfully and finally submitted the same on 09.09.23. Related List of Topics chose by the candidates, related notice, attendance sheet of the candidates are attached herewith.

Number of participants: 64

Course Objective: The course intends to instill the following ability in learners: • Reflective thinking: Learners must be able to think deeply and apply the knowledge and competencies so gained in practical field in the context of both self and society.

- Information/digital literacy: Through project work learners can develop different skills related to digital literacy like- demonstrate ability to access, evaluate, and use a variety of relevant information and use appropriate software for analysis of data.
- **Self-directed learning:** Project works will help learners to develop the ability to work independently.
- Enhancing interactive ability: As a student has to take guidance from his/her supervisor in Project Work, his/her ability of interaction with teachers or with peers must enhance.
- Moral and ethical awareness/reasoning: A project work deals with different ethical and moral issues. It plays an important role in nurturing moral and ethical awareness.

Course Outcome: After completion of this course the learner will be able to:

- Explain the process of conducting a Project.
- Prepare a Project Report.
- Interact freely with supervisor
- Learn using digital devices

Education system in India during the Mughal period

A PROJECT SUBMITTED TO

Department of Education

In partial fulfilment of the requirements for the award of the

degree of

Graduation of Education Submitted

Ву

SUMI SARKAR

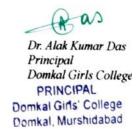

REGD.NO. 054266

ROLL NUMBER: 3114210-2153966

DOMKAL GIRLS COLLEGE,

DOMKAL (WEST BENGAL, INDIA)

2023

UNIVERSITY OF KALYANI

DOMKAL GIRLS COLLEGE'

PROJECT TITLE: EDUCATION SYSTEM IN INDIA DURING THE MUGHAL PERIOD .

SUB: Education (SEC).

NAME: Sumi Sankan.

ROLL NO: 3114210 - 2153966 .

REG NO: 054266 .

SESSOIN: 2021-22

DATE: 20/09/2023 .

Declaration

I do hereby declare that the project entitled "Education system in India during the Mughal period" submitted in partial fulfilment of the requirement for the degree of Graduation of Education is entirely my original work and all ideas and references have been duly acknowledged. It does not contain any work that has been submitted for the award of any degree or diploma of any university.

Sumi Sankan Signature

SUMI SARKAR

REGD.NO. 054266

Certificate

This is to certify that SUMI SARKAR has completed his/her dissertation entitled "Education system in India during the Mughal period" under my guidance and supervision. To the best of my knowledge, the present work is the result of her original investigation and study. No part of the project has been submitted for any degree and diploma to any university. The Project is fit for submission the partial fulfilment of the requirements for the award of Graduation of Education degree.
