

Domkal Girls' College
Report on Parent Teachers Meeting
Department of History
On
16th February 2024

A parent-teacher meeting for the semester I Major Course of History Department, Domkal Girls College was held on 16th February 2024, room no.B/206, at 2.00 pm to discuss students' performance and their plans with their parents. Principal Dr. Alok Kumar Das encourages all departments to organise parent-teacher meetings regularly. Girls in the Domkal region get married at a very early age, and the little enthusiasm that is left is also lost due to addiction to mobile phones. Parents of 45 students of first-semester majors were present. The department has requested parents not to push their girls for marriage without completing their studies. There is no reason to think that education is only needed to get a job. Not everyone will get a government job, education is needed to fight against the odds for one's survival in a country with so much population. The importance of education is much more important if you want to talk to a doctor or a lawyer or a bank anywhere about various problems for yourself or your family.

Parents are worried about the future of girls as much as we are, mobile phones are taking away the interest, and sincerity from the life of students to a great extent. New-generation students have lost their interest in co-curricular activities. A handful of girls Students want to pursue higher studies. The parents asked to hold such meetings again and again. Mothers cried while talking, they were pushed to marry at an early age, and they did not get chances to study due to a lack of opportunities. But now girls are getting opportunities and are not studying. The weakness of this event is that, after giving repeated reminders about the PTM, students were not keen to inform the parents about the meeting. The attendance of the parents is very poor.

It was a great interaction between the teachers and the parents for the development of their daughters/girls where they discussed both the strengths and the areas of improvement. Girls were asked to be sent to classes regularly, parents were asked to keep an eye on whether girls were studying properly at home. The parents expressed their worries about the future of the girls. But they said they are satisfied with the work/performance of the college and the department.
